

Certificate of RoHS Compliance

Restriction of the use of certain Hazardous Substances (RoHS)

EU Directives 2011/65/EU and 2015/863 (ROHS 3) restrict the use of the 10 substances below in the manufacture of specified types of electrical equipment.

Whilst this restriction does not legally apply to components, it is recognised that component "compliance" is relevant to many customers. This includes entries added to the Candidate List on 23 January 2024:

Nicab Ltd's definition of RoHS Compliance,

The product does not contain any of the restricted substances in concentrations and applications banned by the Directive, and for components, the product is capable of being worked on at the higher temperatures required by lead-free soldering.

The restricted substances and maximum allowed concentrations in the homogenous material are, by weight:

Substance	Concentration
Lead	0.1%
Mercury	0.1%
PBB (Polybrominated Biphenyls)	0.1%
PBDE (Polybrominated Diphenyl Ethers)	0.1%
Hexavalent Chromium	0.1%
Cadmium	0.01%
DEHP (Bis (2-Ethylhexyl) phthalate)	0.1%
BBP (Benzyl butyl phthalate)	0.1%
DBP (Dibutyl phthalate)	0.1%
DIBP (Diisobutyl phthalate)	0.1%

The suppliers of the component items purchased have informed Nicab Ltd that their product is "RoHS Compliant". Nicab Ltd has taken all reasonable steps to confirm this statement. Information relates only to products sold on or after the date of this certificate.
